

Revolutionary device for extrication and spinal immobilisation. Designed to face up to difficulties in restricted environments, protecting the vertebral column of the patient. Its way of use significantly reduces the application time and at the same time increases effectiveness.

SAFETY

Carbon stiffness and lightness allow a quick and safe extrication also in confined spaces and under harsh conditions.

EASE

The coloured buckles facilitate and speed up the patient immobilisation process.

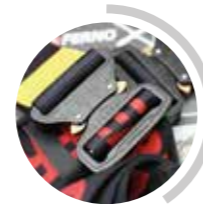

EXTRICATION IN LESS THAN 20 SECONDS

XT = CARBON BOARD + CLASSIC RESTRAINT SET + QHI + CARRY BAG + WIZ LOC COLLARS (3PCS)

part no. Kit XT PLUS-B

COBRA BUCKLE

Capacity 9 kN (917 kgf)
Aluminium alloy 7075

LEG HOOPS

LOOPER DY

Capacity in **22Kn**

Human LIFT

▶ RESTRAINT SYSTEM TESTED IN ACCORDANCE WITH **EN1498**

The HUMAN LIFT kit allows vertical rescue in isolated environments. The device keeps the patient posture on the rescue line, considerably reducing the handling space. Configuration speed is ensured by the single tape that facilitates patient lifting.

XT Pro = XT + QHI + Pro restraints + Carry bag (SEE BACK PHOTO)

part no. XT PRO

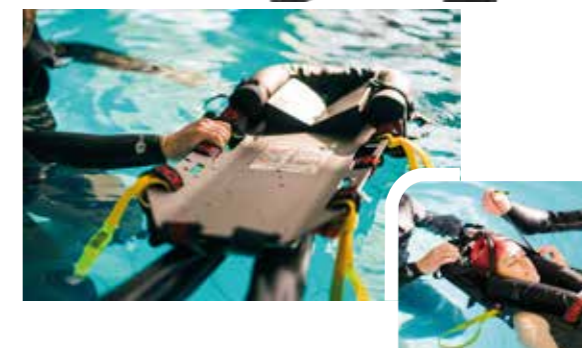

Xt floating is a kit designed to ensure extreme manoeuvrability and reliability during water rescue. The head float and the two side floats ensure an optimal patient support, preventing capsizing and protecting him or her from accidental impacts.

FLOATING

The layout of semi-rigid polyurethane floating tubes is conceived to **keep the patient with the head out of water**. Buoyancy is greater than the one of a buoyancy vest.

Quick float locking and unlocking thanks to **FAST CLIP** latches.

FAST CLIP

XT Floating = XT + QHI + Floating restraints + Carry bag (SEE BACK PHOTO)

part no. XT Floating

Technical specifications

XT

CARBON BOARD + Classic restraint set + QHI + Carry bag + Wiz Loc collars (3PCS)

Width	11.81 in - 300 mm
Length	32.68 in - 830 mm
Height	*2.36 in - 60 mm
Weight (including accessories)	4.40 Lbs - 2 Kg
Load capacity	352 Lbs - 160 Kg

* height including restraints

XT Pro

XT + KIT PRO

Width	11.81 in - 300 mm
Length	32.68 in - 830 mm
Height	*2.36 in - 60 mm
Weight (including accessories)	7.49 Lbs- 3.4 Kg
Load capacity	352 Lbs - 160 Kg

* height including restraints

XT Floating

XT + KIT FLOATING

Width	13.78 in - 350 mm
Length	47.24 in - 1200 mm
Height	*4.33 in - 110 mm
Weight (including accessories)	7.27 Lbs - 3.3 Kg
Load capacity	352 Lbs - 160 Kg

* height including restraints

DO YOU ALREADY OWN AN XT? UPDATE IT!

Our products are designed to be UPDATEABLE TO THE LATEST VERSIONS

HERE ARE PART NUMBERS THAT MAY BE SUITABLE FOR YOU

kit PRO

part no. KIT PRO

includes: 4 restraints with cobra buckle
2 handling rings
2 paddings for restraints (leg hoops)
1 snap-hook
1 lifting tape

kit FLOATING

part no. KIT FLOATING

includes: 4 handling rings
3 floating tubes
2 transverse retaining strips
1 longitudinal retaining strip
